Key ● Standard ○ Optional — Not available

* Fuel economy : Tests designed to give an indication of on-road fuel consumption. CO2 and weight figures are measured according to EC directive procedures. As a result of driving behaviour, road, traffic and weather conditions, general state and equipment levels of the vehicle, real life fuel consumption and CO2 figures may differ from these official values. In case of weight (defined as mass in running order) it applies to vehicles with standard equipment. Optional equipment may increase this figure and decrease payload

^ Maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient at sea level. At altitudes in excess of 1,500 metres, engine output may drop with a reduction in towing capability. Extra weight, such as additional passengers or luggage should also be deducted from the maximum towing weight.

Δ Replaces auxiliary socket when navigation is included

† Always use the recommended USB flash memory device. Some USB memory devices may not work in this audio unit.

For a list of compatible phones, please refer to www.hondahandsfree.com.

The Civic is covered by several different warranties as follows: 3 year or 100,000km standard warranty, 3 year paint corrosion warranty, 5 year exhaust corrosion warranty, 10 year chassis corrosion warranty, 12 year structural corrosion warranty.
